Career Objective

To build a successful career in Cyber Security as a Penetration Tester and Security Analyst by strengthening my technical skills in network security, vulnerability assessment, and ethical hacking. My goal is to contribute to protecting organizations by identifying security weaknesses, improving defenses, and supporting secure system design and incident response in the future.

Educational Background

BSc (Hons) Networking and IT Security

2024-Present

Islington College

London Metropolitan University

Kamal Marg, Kamalpokhari, Kathmandu

High School (Commerce Faculty)

2022-2024

Rai School

CBSE

Naxal, Kathmandu

SEE

2021

Rai School

CBSE

Naxal, Kathmandu

Experience

Current

Intern

02/2026

Islington College

Worked as an IT Intern supporting day-to-day technical operations, troubleshooting issues, and assisting in maintaining IT systems. Gained hands-on experience in networking, system support, and basic cybersecurity practices.

- Assisted in troubleshooting system and network issues in a lab environment.
- Configured virtual machines using Oracle VirtualBox for testing.
- Performed basic network simulations using Cisco Packet Tracer and Cisco Routers.
- Supported implementation of basic security practices and system monitoring.

- **Skills**

Technical Skills:

Networking: TCP/IP, Subnetting, Basic Routing

Security: Cryptography basics, Vulnerability awareness

Programming: Java (OOP, GUI), Python (Automation), JavaScript (Frontend)

Tools: VirtualBox, Cisco Packet Tracer, VS Code

Soft Skills:

Problem Solving: Analytical approach to coding and security.

Projects

Academic Projects:

- Gym Membership Management System (Java)

Tech Stack: Java, GUI Development, File I/O

Description:

Developed a desktop-based application to manage gym operations and member records efficiently.

Key Features:

- Implemented validated CRUD operations for Regular and Premium members
- Added billing system with discount handling and payment tracking
- Integrated attendance management for members
- Enabled file-based data storage (read/write operations) for persistence

- “WeCare” Skincare Inventory Management System (Python)

Tech Stack: Python

Description:

Built an inventory management system for a skincare retail store to streamline product tracking and stock control.

Key Features:

- Managed product records including name, brand, price, and quantity
- Implemented stock update and restocking functionality
- Generated structured invoices for purchases and restocking
- Improved efficiency of daily store operations

- Watch Shop E-Commerce Website (Frontend)

Tech Stack: HTML, CSS, JavaScript

Description:

Designed a responsive frontend interface for an online watch store with a focus on user experience.

Key Features:

- Created interactive product display pages
- Implemented responsive design for multiple screen sizes
- Designed clean navigation layout for better usability
- Enhanced UI using CSS styling and JavaScript interactions

- Custom Encryption & Decryption Tool (Cybersecurity)

Tech Stack: Cryptography Concepts

Description:

Developed a basic encryption and decryption tool to demonstrate secure data handling concepts.

Key Features:

- Implemented core encryption and decryption logic
- Demonstrated principles of data confidentiality
- Simulated secure communication process
- Applied foundational cybersecurity concepts

- Personal Portfolio Website (Frontend)

Tech Stack: HTML, CSS, JavaScript

Description:

Designed and developed a personal portfolio website to showcase projects, skills, and professional profile.

Key Features:

- Built fully responsive layout for desktop and mobile devices
- Organized and presented projects in a structured format
- Added interactive UI elements using JavaScript and CSS
- Integrated contact section for professional communication

Training and Certifications

- [Certificate in SIEM for Log Management](#)
- [Certificate in IS Audit](#)
- [Technical Introduction to Cybersecurity 3.0](#)
- [Introduction to the Threat Landscape 3.0](#)
- [Getting Started in Cybersecurity 3.0](#)
- [Fortinet Certified Fundamentals Cybersecurity](#)
- [AWS Academy Graduate - Cloud Foundations - Training Badge](#)
- [AWS Academy Graduate - Cloud Architecting - Training Badge](#)
